Swimming Classes on site for 3.5yrs+!

Infants | 3 months- 18 months

Our Infant class provides a low 1:3 teacher to child ratio and creates individualized plans for each child. During the summer camp program teachers will provide indoor and outdoor time for our little ones. The Infants will enjoy outside time on our private playground area and relaxing walks in our Infant Buggy. They will have time to observe the exciting new world around them! Inside, our little ones will be given opportunities to strengthen their newly emerging skills through lessons planned by our teachers; these will include sensory activities, gross and fine motor activities, music, socialization time, reading time, and exploration! Our teachers are also speaking to the Infants in Spanish throughout the day, their little minds are wonderful at soaking up another language! You will be able to indicate in your child's individual plan how often you would like your child spoken to in Spanish during the day!

Infant Features:

- Private outdoor playground space
- Indoor Multipurpose Room
- Infant Buggy for exploration walks
- Low student to teacher ratios
- Individualized plans
- Spanish Language
- Water Play outside
- Bilingual Education in English and Spanish

Early Preschool | 1.5years- 2 years

The Early preschool class will enjoy bilingual themed lessons for each Summer Camp Session planned by our experienced and dedicated teachers! Our children will be able to explore the classroom and participate in hands on lessons that incorporate numbers, language and literacy, movement, art, science, music, and dramatic play in both the English and Spanish language.

Teachers will be designing lessons that work off of fun summer themes while still providing educational value to the activities. Low teacher to student ratios allow for each teachers to work with a small primary care group of 5 students per teacher. Students will be working on interactive lessons inside as well as outside activities. They will be able to enjoy our private outdoor playground space where teachers will plan active lessons and provide opportunities for the students to observe and explore nature and the world around them. Indoors, the students will also be able to use their play house complete with steps, tunnel, and slide right inside the class!

Early Preschool Features:

- Private outdoor playground space
- Indoor play house
- Indoor Multipurpose Room
- Gymnastics with Travelin' Tumblers
- Music
- Bilingual Cooking Class
- Water Play outside
- Low student to teacher ratios
- Bilingual Education in English and Spanish

Preschool | 2 years- 3 years

The preschool class will enjoy bilingual themed lessons for each Summer Camp Session planned by our experienced and dedicated teachers! Our children will be able to explore the classroom and participate in hands on lessons that incorporate mathematics, language and literacy, movement, art, science, music, and dramatic play in both the English and Spanish language.

Lessons will become more challenging to prepare our students for the Pre-K class in the fall. These lessons will follow their fun summer themes while incorporating math concepts and problem solving skills, hands on science activities and observations, art lessons and studies and more! Our preschool students will be able to use our outdoor private playground area for active outside activities as well as our indoor multi-purpose room.

Preschool Features:

- Private Outdoor playground space
- Indoor Multipurpose Room
- Indoor playhouse
- Gymnastics with Travelin' Tumblers
- Soccer
- Bilingual Cooking Class
- Water Play Outside
- Low student to teacher ratios
- Bilingual Education in English and Spanish

Pre-K 3,Pre-K 4, K & 1ST Grade

Our older children will have a jam packed summer camp with indoor and outdoor activities! These programs are bilingual programs and our students are being taught and spoken to in both the English and Spanish language. Our highly experienced teachers are creating challenging and interactive lessons for the children all summer. Children will be working on hands on science experiments and lessons, problem solving and critical thinking skills in mathematics and language and literacy, art lessons, music, a Spanish cooking class, active movement activities, and activities and trips to them help them learn about our community. Our students will be working inside their classrooms, on our private playground area, and attend nature and observation walks as well as local field trips!
